

Earth Protectors!

Today we are celebrating **Earth Day** by working together to create a giant classroom poster.

Our Mission

We will learn simple ways to take care of our planet, including:

-  Recycle, Reuse, Reduce
-  Save water
-  Plant more trees
-  Walk more
-  Ride a bicycle
-  Save energy
-  Protect animals
-  Do not litter
-  Stop pollution
-  Use both sides of paper

These ideas appear in our collaborative poster.

What You Will Do

1. You will receive one section of the poster.
2. Colour your section neatly and carefully.
3. Add bright colours and creativity.
4. Write your name on the back.
5. Give your completed piece back to the teacher.
6. We will assemble all the pieces to create one large Earth Day poster!

Success Criteria

- ✓ Colour carefully inside the lines.
- ✓ Work neatly and take your time.
- ✓ Show teamwork and respect.
- ✓ Learn one new way to help the Earth.

Think About It

Before you start, discuss with a partner:

- What is one thing you already do to help the Earth?
- Which action on the poster is most important?
- What could our class do this week to make our school greener?

Earth Day Promise

"I will do my best to take care of our Earth every day!"

Have fun colouring and helping us create a beautiful poster together!
